

## **QUANTITATIVE DATA ANALYST**

We are looking for a Quantitative Data Analyst to join our team and partake in a variety of projects that will allow them to gain experience in the field of International Business and Information Technology.

Requirements:

- Must have an advanced level in English (oral and written).
- Must have a personal computer/laptop and reliable internet connection.
- Must be proficient in Google products (Google Docs, Sheets, Slides, etc) and Google Workspace.
- Must have knowledge of modern database and information system technologies.
- Must be familiar with Zoom and other video call platforms.

Skills & Qualifications:

- Degree in Computer Science, Mathematics, or Statistics (preferred).
- Minimum two years of experience in the industry.
- Excellent multitasking and organizational skills.
- Effective analytical and problem-solving skills.
- Ability to manage time effectively.
- Adaptability and flexibility.
- Willingness to learn.

The duties for the Quantitative Data Analyst include, but are not limited to, the following:

- Understand the concept of the company, brand, customers, and product goals.
- Interpret data, analyze results using statistical techniques and provide ongoing reports.
- Identify, analyze, and interpret trends or patterns in complex data sets.
- Acquire data from primary or secondary data sources and maintain databases/data systems.
- Prepare and organize reports, manage filing systems, and update records.
- Work with management to prioritize business and information needs.
- Perform various tasks to support the project.

Other Details:

- Remote work.
- Part-time/Full-time possibilities.
- Flexible schedules with three-day weekends.
