

## **CYBERSECURITY CONSULTANT**

We are looking for a Cybersecurity Consultant to join our team and partake in a variety of projects that will allow them to gain experience in the field of International Business and Information Technology.

Requirements:

- Must have an advanced level in English (oral and written).
- Must have a personal computer/laptop and reliable internet connection.
- Must be proficient in Google products (Google Docs, Sheets, Slides, etc) and Google Workspace.
- Must have knowledge of modern database and information system technologies.
- Must be familiar with Zoom and other video call platforms.

Skills & Qualifications:

- Degree in Computer Science or STEM-related majors (Science, Technology, Engineering, and Mathematics).
- Minimum two years of experience in the IT industry.
- Excellent multitasking and organizational skills.
- Effective analytical and problem-solving skills.
- Ability to manage time effectively.
- Adaptability and flexibility.
- Willingness to learn.

The duties for the Cybersecurity Consultant include, but are not limited to, the following:

- Understand the concept of the company, brand, customers, and product goals.
- Develop strategies, plans, and roadmaps to solve organizational level security problems.
- Implement vulnerability testing, threat analysis, security checks, and others.
- Build-in security systems to software, hardware, and components.
- Capture new trends in Information Technology and Cybersecurity.
- Prepare and organize reports, manage filing systems, and update records.
- Do research on Cybersecurity criteria, security systems, and validation procedures.
- Prepare training sessions on Cybersecurity for the team.
- Perform various tasks to support the project.

Other Details:

- Remote work.
- Part-time/Full-time possibilities.
- Flexible schedules with three-day weekends.
